

Centre Clean

The Versatile Performance Cleaner & Deodoriser

Centre Clean is an advanced aqueous replacement for solvent and caustic cleaners. Centre Clean can be used on all water safe surfaces found in leisure, industrial and commercial PSV applications. The advanced formula provides versatility of use, either through a floor scrubber or hand sprayer.

Centre Clean Applications

- Cleans and re-news safety flooring
- Cleans and deodorises upholstery
- Reduces body fats on shower surfaces
- Cleans public vehicle interiors
- Removes tyre and scuff marks

Centre Clean Users

- Car manufacturers
- Leisure Centres
- Public Transport
- Specialist contract cleaners
- Facilities operators

Versatile

Can be used on a wide variety of surfaces, including upholstery.

Effective

Centre Cleans advanced formula ensures quality results when only one multi purpose product is required.

Low Foaming

Can be used through scrubber driers and help reduce the surface drying time.

Deodorisers

Centre Clean has high persistence components which encapsulate odours, leaving surfaces smelling fresh and clean.

Economy

Dilutes between 50:1 and 10:1 with water.
