

D-Scale Plus

D-Scale plus has been formulated to remove light deposits or scale from stainless steel, ceramic and porcelain fittings.

D-Scale Plus contains no hydrochloric acid so is kinder for the user and the environment. The unique thixotropic formulation allows a prolonged contact time ensuring a complete deep cleaning action.

Benefits

- Effective on a variety of finishes
- Clings to remove soiling easily
- Less risk to user than competitive products
- For use in showers, changing rooms, toilets and leisure facilities

Recommended for use in leisure centres, factories, educational establishments and institutions.
