

FLOOR KLENZ

Natures Industrial Microbial Cleaner and Stain Remover

Floor Klenz is a Heavy Duty cleaner which can be used in a floor scrubber drier, through a sprayer or manually applied. Floor Klenz has been developed to cope with various floor cleaning problems from cleaning oil coated floors to removal of light tyre marks on resin floors.

Floor Klenz Users

- Factories
- Bus stations
- Leisure Centres
- Contract Cleaners
- Airports
- Hospitals
- Educational Establishments

Features and Benefits

- Contains no harsh acids, caustics, petroleum distillates or chlorinated solvents.
- The formulation is designed to help with rinsing by speeding up the drying time.

SPECTRUM ENGINEERING SOLUTIONS.

A Division of Lindsay Enterprises Limited
Registered Office: 45 Ochiltree Dunblane Perthshire FK15 0DF
Registered in Scotland Number SC264379

Safety and Environment

Floor Klenz is safer to use than conventional heavy duty floor cleaners and is bio-degradable.

Versatile

Can be used hot or cold and applied by sprayer or mop. Can also be used in floor scrubber driers.

Effective

Floor Klenz will break down a variety of deposits including light rubber tyre marks from fork lift trucks.
