

## Storage Cabinets

**Safety Storage Containers**

As an accessible store, they offer a compact solution for the storage of hazardous substances and materials. Prefabricated from galvanised sheet steel. Wall and roof elements from galvanised trapezium profile corrugated sheet steel. Wall, roof and floor sections from thick steel plate. Hot dipped galvanised steel sump floor, floor grating removable (loading 1000 kg/m<sup>2</sup>). Large, single wing door (width 1294mm) for simple handling. Traversable roof (designed to withstand 125 kg/m<sup>2</sup> snow load) with drainage via interior gutters.

Code:	8045
Size:	298,5cm (l) x 239cm (w) x 238cm (h)
Sump:	1000 Litres
Base Surface:	7 sq. metres
Weight:	650kg

Code:	8043
Size:	239cm (l) x 91,5cm (w) x 238cm (h)
Sump:	300 Litres
Base Surface:	2,1 sq. metres
Weight:	240kg
