Bio-Blast Natures Cleaning System

Bio-Blast is a natural solution for difficult cleaning problems associated with stains and odour control. The microbial formula produces enzymes which have enhanced abilities to degrade organic materials including proteins & starches. The action of Bio-Blast helps prevent odour formation.

Bio-Blast Applications

- Removal of odours from body fluid spills.
- Staining from coffee, tea, wine, milk, blood, urine, faeces and medicine etc.
- Reduces build-ups of Fats, Oils & greases in drains.

Bio-Blast Users

- Carpet cleaning contractors
- Trade waste companies
- Leisure centres & Stadiums
- Nursing homes & Hospitals
- Public transport
- Educational establishments
- Restaurants

Versatile

Excellent on a wide range of water safe surfaces, porous and non-porous. Can be applied through carpet cleaning equipment and a variety of sprayers.

Effective

Bio-Blast has the ability to quickly deep clean & remove odours, often in one operation. Persistent odours & stains may require a further treatment.

Safety & Environment

Bio-Blast is a non-hazardous formulation.

Economical

Bio-Blast can be diluted between 10 to 100 parts water.

Additional Resources

Consult product label and material Safety Data Sheet (MSDS) for further use and information
