Plastic Remedy

To reclad a faded static home would cost in excess of £4000.00, with the additional cost of transporting the home to and from a dedicated restoration workshop. Or it can be done using just two 515 ml flasks of Plastic Remedy.

This 515ml pack is intended for static home owners and will cover around 540 square feet, easily enough to treat a short and long side of a static home.

515ml - £97.99

Once you've treated your faded plastic with the best restorer, you should look after it with the maintainer designed specifically for the job. Klenz7 is the only product specifically approved for maintaining surfaces restored with Plastic Remedy.

Klenz7 - £22.99
