Solve-Free

Solvent free heavy duty road surface degreasing system

Solve-Free has been formulated as a super-fast degreasing system for tackling oil spillages on road surfaces and highways where minimising the delay and flow of traffic is essential (journey time reduction).

Solve-Free is optimised for Macadam surfaces, yet still gives excellent results on concrete and paved surfaces.

Product Applications

- Cleaning of oil spills from road surfaces and paving
- Removal of fats, oils, and greases
- Removing water based uncured inks.

Product Users

- Highway Agencies
- Engineering workshops
- Local authorities
- Oil production sites
- Transport companies
- Dairies and food retailers
- Meat & Poultry processors

Versatile

Can be used to remove stubborn deposits of hydraulic oils, diesel, fats and greases.

Effective

Quickly gets to work on a variety of surfaces, reducing manual effort and clean up time. Solve-Free can be used through a variety of sprayer systems or bowsers.

Safety & Environment

More user and environmentally friendlier than caustic based cleaners.

Economical

Solve-Free can be diluted up to 1:100 parts water.

Additional Resources

Consult product label and material Safety Data Sheet (MSDS) for further use and information
